

Resolution 78--21
Residence Hall Parking Improvements II
Introduced 4/17/79
Passed/Failed PASS 10 APRIL 24th

Whereas, the residence halls are the "homes" of on-campus students and many of these students must park in lots distant to their halls,

Therefore, be it resolved that ASG request that the University Traffic and Parking Committee take the following action to improve this situation:

1. Change the Grise Hall Lot to "B" zone parking and designate a floor of the Parking Structure for "Red" zone parking.
2. Allow the residents of Potter Hall to purchase a special "Red" zone sticker that would allow them to park in the "Red" zones adjacent to their hall, and the "B" zones further down the hill.
