

MINUTES

Dr. Kirchmeyer came and spoke to Congress before the meeting about identity theft. As it stands, anyone can get a person's name, address, and e-mail off of the student directory website. He wanted to know if the students wanted to keep this system or go to a "hotel concept" where a limited amount of information was online and the front desk of each hall would call up to see if a resident is expecting a visitor. As of the spring semester, no student, faculty, or staff member will use social security information. Instead, they will use a computer-generated number for identification purposes. John Law asked about requiring people to log on to use the directory; Dr. Kirchmeyer said it was a good idea but wouldn't help if the information was printed off. Hollan Holm asked if organizations could get access to residents' addresses; Dr. Kirchmeyer said that they would still have access and would still have to go through the normal process gaining access to it.

The meeting of the Student Government Association of Western Kentucky University was called to order at 5:08pm on September 16, 2003 with the Executive Vice President in the chair.

There was a motion to approve the minutes and seconded. The motion passed unanimously.
