Purpose: For Western Kentucky University to excuse all student absences on Monday, December 3rd and Tuesday, December 4th

Status:

Whereas: Many students will already be home for the weekend and will stay home as a result of Browning's prediction, which states that the New Madrid Fault Earthquake will occur on one or both of these two dates and

Whereas: Several students who normally do not go home are planning to go home on these dates because of strong encouragement from families and

Whereas: a large number of Western students are from cities that lie on or near the New Madrid Fault line. Examples of these cities are Murray, Owensboro, Paducah, and Nashville and

Whereas: students who will miss classes for what they and their family members believe to be legitimate reasons could suffer from missed tests, quizzes and or assignments and

Whereas: twenty-one counties in Western Kentucky have already cancelled public schools for December 3 and 4.

Therefore: Be it resolved that we, the members of the Associated Student Government of Western Kentucky University do hereby encourage WKU to make all student absences on December 3 and 4 be excused
