

Resolution 78-17

Changing of withdrawal periods

Introduced 3-27-79

Passed/Failed PASSED MARCH 27, 1979

Whereas, many students, because of some situation, cannot really determine whether they are passing or failing a course until they receive a formal notification from the University, and

Whereas, every student should be given the opportunity to withdraw from a course based on a decision made with all available information having been taken into account, and

Whereas, the current University policy closes the "W" period after 6 weeks and the "WP/WF" period after 8 weeks, while notices of deficiency do not come out until the ninth week, thus precluding some students from knowing officially whether they are passing or failing until after the period of withdrawal is over.

Therefore be it resolved that we, the Associated Student Government of Western Kentucky University, support the idea of moving the "W" period from 6 weeks duration to 8 weeks duration and moving the "WP/WF" deadline from the 8th week to the 10th week. We also recommend that this proposal be presented to the Academic Council as soon as possible.
