Resolution 04-03-S
Broadband Expansion Fee
March 29, 2004

PURPOSE: For the Student Government Association of Western Kentucky University to oppose at this time the proposed broadband expansion fee for students who live on campus.

WHEREAS: The majority of residents on campus seem satisfied with their Internet connection, and

WHEREAS: The proposed fee is coming at a time of tuition increases and budget cuts and students already have new fees to manage, and

WHEREAS: This proposed fee would be given to every student even those who do not have a computer in their residents hall, and

WHEREAS: The fee would be given to residents even though the connection at all campus computer labs would also significantly increase thus giving all students faster connections to the Internet, and

WHEREAS: Though the majority of students do not feel the need for a broadband increase at the present time, future student bodies may welcome and possibly request such a fee.

THEREFORE: Be it resolved that the Student Government Association of Western Kentucky University does hereby oppose the proposed broadband fee increase for residents on campus at this time.
