Special Orders

University Committees Report(s)

Student Life Foundation went well. Douglas Keen Hall will be the next to receive renovation within the next three years.

Budget Council: we discussed RTAs. It was recommended to roll most to the base budget. Parking and Transportation, Student Government Association and Campus Activities Board and others. they asked me about SGA. Rolling into the base budget would not give us an increase. I need some feedback from the senators and the students. In 2003 we doubled on-campus and off-campus in enrollment. I have a list of stuff for you guys to look at on a one on one basis. We are voting on Friday.

Bill 11-06-F Books for Africa

Johnathon Boles read the entire legislation. Lucas Humble, the author, was recognized. Basically, we've all got to the end of the semester before and had books that the University Bookstore wouldn't buy back. We can send them to Africa. Kendrick Bryan made a friendly amendment to change the ", and" to a "." in the second Whereas clause and to add a period at the end of the Therefore clause. Humble approved. Christa Wilcox requested to remove the comma in the third Whereas clause. Humble agreed it

was friendly. Seth Norman moved to previous question. There was a second. *The bill passed unanimously through the Senate.*

Resolution 07-06-F Cherry Hall Sign

This resolution was tabled in the Legislative Research Committee because of lack of authorship.

Resolution 08-06-F To Support a Mock Page Quota

Johnathon Boles read the entire legislation. The author, Seth Norman, was recognized. Norman made a friendly amendment within the last Whereas clause to change the period to a comma. Norman stated that Timothy Howard came to the Student Affairs Committee and asked for a resolution for support. In some cases the number of pages students are printing is ridiculous. I don't know how they got this information without already doing this. I think they want to show some students how many pages they are printing. Jeanne Johnson: they came and talked to the Executive Council. This is a huge part of their budget. They can set a quota in the future or pay to print. The numbers came from averages. The study with fake quota and see how many students go over and under it, just get a feel. Theodore Harden said averages are easy, but how do the know nineteen students printed over 10,000 pages? Norman said it tells the students how many pages you are printing. Amanda Allen: because of the login with your name. Joshua Fries asked: the average of 471, does that reflect the nineteen? Norman said it did not. Christa Wilcox made a friendly amendment to change "research" to "researched" in the final Whereas clause. Norman accepted. Wilcox moved to previous question. There was a second. *Resolution 08-06-F passed unanimously through the Senate.*

Bill 12-06-F Proposal to Buy Some Mice

Johnathon Boles read the entire legislation. The author Seth Norman changed the last Whereas clause to read: Senate office computer mice are extremely crappy. I looked at online prices and in the stores around. Newegg.com has them for two dollars a piece with shipping it will about eighteen dollars which is why I gave twenty in the legislation. Lucas Humble made a statement: the actual word is mouses when talking about computers. Amanda Allen said it is mouse, like moose. Matthew Holland said he would donate one extra mouse he has. Norman changed the legislation from four to three. Kendrick Bryan made a point of information: should "senate" be capitalized? Boles replied that yes, in our case it should be the "Student Senate". Norman changed the legislation to Student Senate and from mice to mouse. Diane DeRosa Reynolds moved to previous question. There was a second. *The bill passed unanimously through the Senate.*
