PASSED

Resolution 89-8-S
Conversion of a Non-airconditioned
Residence Hall to Coed Housing
Introduced 3/21/89

PURPOSE:

To convert a nonair conditioned residence hall to coed housing.

STATUS:

WHEREAS,

There are two coed halls, Schneider and Poland; however, student demand and inquiries about coed housing are far greater, especially for attractively located Schneider Hall, and

WHEREAS,

Students are generally more satisfied with the quality of residence life in coed halls; also there is a significant reduction in discipline problems as well, and

WHEREAS,

Coed housing accentuates and broadens the university experience while also better preparing students for real life situations, and

WHEREAS,

At many major universities coed housing is a standard and not an exception, and

WHEREAS,

Conversion of a nonair conditioned hall to coed housing allows Western to provide an attractively located hall further meeting the student demand for coed housing and also improving the quality of student life, and

WHEREAS,

An informal and random survey of students in residence halls found overwhelming support for more coed housing, and

THEREFORE,

Be it resolved that we, the members of the Associated Student Government of Western Kentucky University, recommend that one nonair conditioned residence hall be converted to coed housing.
