RESOLUTION 98-1-S

Reallocating fees as a Student Government Association/Programming Fee
January 27, 1998

PURPOSE: For the University to extend permanently the \$5 Intramural Facility Fee and upon retirement of the Intramural Facility project's debt, redefine the Intramural Facility Fee along with the remaining \$5 Other Student Fees, and the \$2.50 Student Government Association/Lecture as an "SGA/Programming Fee" that would be exclusively administered by the Student Government Association with portions being allocated to the University Center Board.

WHEREAS: Western's current programming (University Center Board) budget of approximately \$70,000 has not increased overall in the past nine years and is not comparable with the majority of the other seven four-year public universities in the Commonwealth of Kentucky, and

WHEREAS: the current Student Government Association's budget of approximately \$41,000 is not adequate to suffice the need of the 15,000 students of Western Kentucky University, and

WHEREAS: increasing the current programming (UCB) budget will allow the University Center Board to present the students with better-known entertainers and more diverse entertaining/educational/developmental events and activities which will in turn allow for increased retention and involvement of WKU students, and

WHEREAS: increasing the current Student Government Association budget will allow the Student Government Association to better meet the needs and concerns of WKU students.

THEREFORE: Be it resolved that we, the members of the Student Government Association, do hereby recommend to the University to extend permanently the \$5 Intramural Facility Fee and upon retirement of the Intramural Facility project's debt, redefine the Intramural Facility fee along with the remaining \$5 Other Student Fees, and the \$2.50 Student Government Association/Lecture as an "SGA/Programming Fee" that would be exclusively administered by the Student Government Association with portions being allocated to the University Center Board.
