RESOLUTION #4

Parking Zone

Residents of Potter Hall Have a difficult time parking, as do the residents of East, North, Bates Runner and McLean Halls. Often, these students must walk a long distance to their dorms at night, which is a potentially dangerous situation.

The Housing Committee of A.S.G. propose the following to alleviate this situation:

(1) Issue special zones, for the residents of these dorms. Potter Hall's parking zone shall be located immediately to the front of Potter Hall for use by Potter Hall residents.

East Hall and North Hall parking shall be located in Grise Hall parking lot, in the parking spaces immediately adjacent to the dorms.

Bates Runner and McLean Hall parking shall be located in the areal adjacent to the sidewalks next to Grise Hall.

This proposal will not prevent faculty and staff members from using these parking areas. Students who now are never sure where they will park will no longer be exposed to a potentially unsafe situation.
