RESOLUTION #11

Non - Smoking Designations

Whereas public facilities have designated places for smokers and non-smokers. There have also been several states that have established laws prohibiting smoking in public places.

Whereas this has been done to alleviate the non-smoker. The non-smoker should have the freedom from smoke for health,

Whereas in light of this, it is felt that there is a problem proper University officials to provide a specified, designated area for non-smokers in each eating facility on campus. This should provide for those non-smokers who may have severe health reasons demanding they remain away from smoke and those non-smokers that generally find smoke offensive.
