RESOLUTION #8

Laundry Improvements

Since many students who choose to stay on campus over weekends find this the best time to do their laundry, and since a van has been purchased to provide on campus transportation to and from the launderette, it should be resolved that the van's operating hours be expanded from the present five days a week to seven days a week.

Also, be it resolved that there be an attendant (properly marked) on hand to give change, advice and help during the operating hours.

This will be recommended on a trial basis for eight weeks and left to the attendant to keep record of use and response.
