RESOLUTION 92-04-F

MORE PARKING IN PFT LOT NEAR NEW HALLS

INTRODUCED: September 29, 1992

PURPOSE: For Western Kentucky University to provide for the students more parking spaces in the P.F.T. lot close to the new halls where a future new hall will be built.

WHEREAS: Due to the lack of spaces for the amount of residents per building; especially with the new halls being added, and

WHEREAS: Due to the risk for safety the residents have to face, such as crossing the street and walking late at night from the Egypt and Gravel lot;

WHEREAS: The areas adjacent to the gravel lot are subject to continual erosion from rain and weathering; and

WHEREAS: The grass is being killed from continual trampling by students which in turn causes mud to form. The mud makes the area look bad and the residents are tracking the mud into the New Residence Halls, staining the new carpets; and

WHEREAS: There is a lack of spaces for residence and visitors in the loading and unloading zones, forcing them to park in handicapped and director's spots which is causing students to be ticketed/towed.

Therefore: Be it resolved that we, the members of the Student Government Association, in the interest of Western Kentucky University's present and future students, do hereby recommend that the Physical Plant put a gravel lot in the P.F.T. lot near the New Residence Halls at the sight of the future Residence Hall.
