

Purpose: For the University to require computer lab ^{assistants} ~~monitors~~ to have prior knowledge of the computer software available in the designated lab

Whereas: Prior computer knowledge constitutes attending a ^{computer} ~~orientation~~ session ~~held~~ ^{taught} by a professor in the Computer Science Department, and

Whereas: The current computer lab ^{assistants} ~~monitors~~ are often unfamiliar with the software available in the lab, and

Whereas: This lack of knowledge results in an inability to assist other students with any problems they may have, and

Whereas: Many students' ~~only way of learning~~ are required to use computers and their only source of ~~the~~ ^{however} learning the programs is through the computer lab assistants.

Therefore: Be it resolved that we the members of the Student Government Association do hereby recommend that all computer ~~lab~~ lab assistants attend a mandatory orientation session prior to employment
