

Increasing the designated 10 minute parking spaces to 15 minutes
resolution 97 - -

Purpose: For the university to increase all designated 10 minute parking spaces to 15 minutes

whereas: The time limit of 10 minutes is not adequate enough in some cases for students or others to complete a specific task

whereas: 15 minutes would allow those who use the 10 minute parking spaces to have ample time in which they may complete their purpose for parking

whereas: Due to the 10 minute time limit being inadequate, students are unfairly receiving parking tickets

Therefore: Be it resolved that we the members of the Student Government Association do hereby recommend that the university increase all designated 10 minute parking spaces to 15 minutes.
