Resolution 98-3-S  
Campus-wide consistency of clocks  
February 17, 1998

PURPOSE: For the University to set all clocks on campus to the correct time in order to maintain uniformity throughout the school year and to update all clocks quickly whenever they are incorrect.

WHEREAS: Many clocks on campus are set to different times or are not working, causing a great deal of confusion as to when classes begin and end, and

WHEREAS: Many clocks are set to the wrong time for weeks after power outages and Daylight Savings time, and

WHEREAS: Some students are counted absent or tardy because of the disparity in times.

THEREFORE: Be it resolved that we, the members of the Student Government Association, do recommend Western Kentucky University set all clocks on campus to the same time and maintain this uniformity throughout the school year.
