Resolution 98-9-F
Advisor Evaluations by Superiors
October 12, 1998

PURPOSE: For Western Kentucky University to require all of the academic advising supervisors to evaluate the advisors in their respective departments, based on the Advisor Perception Inventory contained in the Advisor Handbook, in order to hold advisors accountable for the quality of their advisement.

WHEREAS: Many students feel alienated in the advisement process because they believe that the choice between good and bad advisement lies in the advisor's will rather than the student's right, and

WHEREAS: Advisors should be provided with any and all necessary information that may aid them in improving their advisement, and

WHEREAS: Students should be able to exercise some control and influence in the advisement system.

THEREFORE: Be it resolved that we, the members of the Student Government Association, do hereby encourage all academic advising supervisors to evaluate the advisors in their respective departments, based on the Advisor Perception Inventory contained in the Advisor Handbook.
